

907 Filmic Application Tape

907 is a clear polypropylene film coated with an acrylic adhesive specifically designed to transfer any sized vinyl graphics. The plasticiser resistant adhesive guarantees a strong initial tack to all types of vinyl films.

The adhesive is coated in a way to ensure easy unrolling and elimination of static. The transparent film will not stretch or curl and offers excellent lay flat properties which avoids wrinkling.

Suitable for wet & dry applications. Easily removable after application.
