

Essential Floor Laminates

A clear, monomeric plasticised PVC film with a matt surface embossed with a sand grain texture designed as an economical over-laminate for floor graphics. Water-based pressure-sensitive, permanent adhesive, resists oxidation and bleaching. This film can give indoor floor graphic life of up to 12 months. Short-term outdoor use is also possible.

PROPERTIES

OTHER INFORMATION

Processing:

After printing, we recommend waiting at least 24 hours before applying laminates to ensure outgassing of any solvents.

Always apply the material on to flat surfaces that are free of dirt and grease. We advise to check the compatibility between surface and adhesive before application.

Storage:

Under normal conditions - ie: 50% relative humidity and room temperature of approx. 20°C this product in its original packaging can be stored for up to 6 months.

Notes:

We recommend that the customer test the suitability of the product for the required purposes under original conditions.
